## What We Do

Cominfo is a Microsoft certified partner that provides data infrastructure services to modernize and unify outdated technology and processes. Our primary area of focus involves transforming enterprise reporting capabilities and enabling advanced insights.

Cominfo is a technology integrator focused on innovation through Analytics, Automation and Visualizations. Our industry leading, certified professionals utilize the Microsoft Platform and UiPath to develop, deploy, integrate, and support enterprise level analytics. The renown of our successful deployments has earned Cominfo the Microsoft Partner status. We hold this achievement in the highest regard and continuously strive to deliver holistic solutions that yield advanced business insights for organizations of all sizes.

Organizations that pursue the analytics journey with Cominfo accelerate their decision making capabilities across the enterprise. By implementing a modern, unified reporting platform these organizations reduce manual tasks, increase collaboration among business departments, improve security and scale with the cloud. These advancements are actualized through the integration of Power BI which yields reduced costs and time spend with outdated reporting processes.
